AWARD MESSAGE

Nikola started with a foundation of trust with balance team to drive design centered approach from framing the problem space to delivering top notch design experience on a very complex project 'My Account Mid Term Multi Component'. I've received many praises from BTO, responsible PMs about his excellent work and expressed how much they enjoy working with him. Nikola's work ethic also contributes to design team success by spotting any UX opportunities to improve key user flows. Nikola is very talented to break down a complex product model at a atomic level and explains it in an very easy way to understand. he has shared and onboarded many designers to understand this vital experience across Dell Digital and EDG design organizations. Nikola is a fine example of inspiring UX professional that brings it to the team on a daily basis. We enjoy working together and what an honor to be on the same team with him.
